Orville and Wilbur Wright were brothers. They are famous for inventing and flying the first airplane.

The Wright Brothers were very good at fixing and inventing things. They were good mechanics.

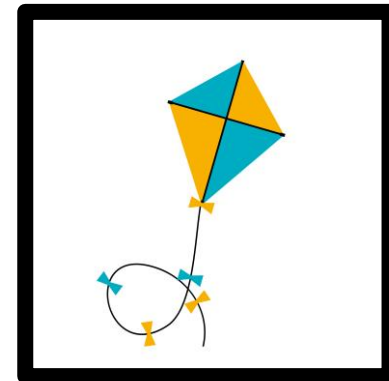

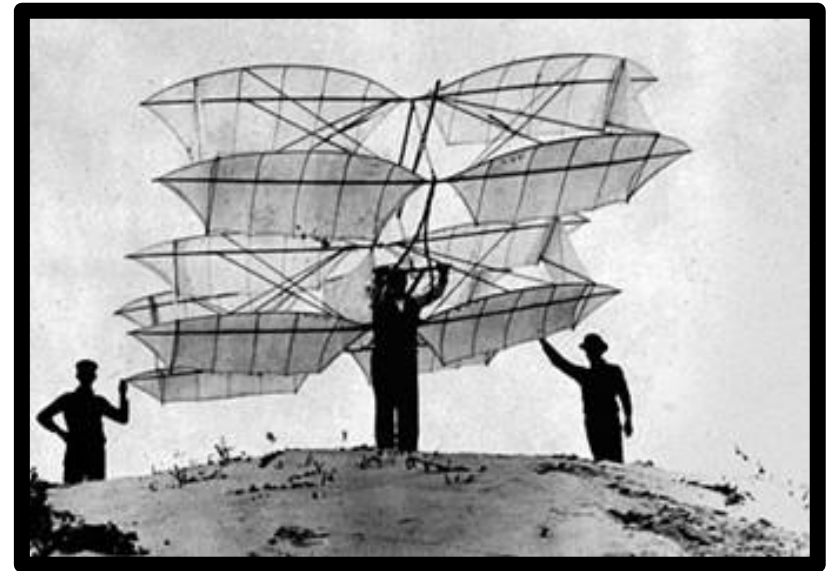

The Wright Brothers loved bicycles.
Old bicycles had a **big front wheel**.
They were difficult to ride.

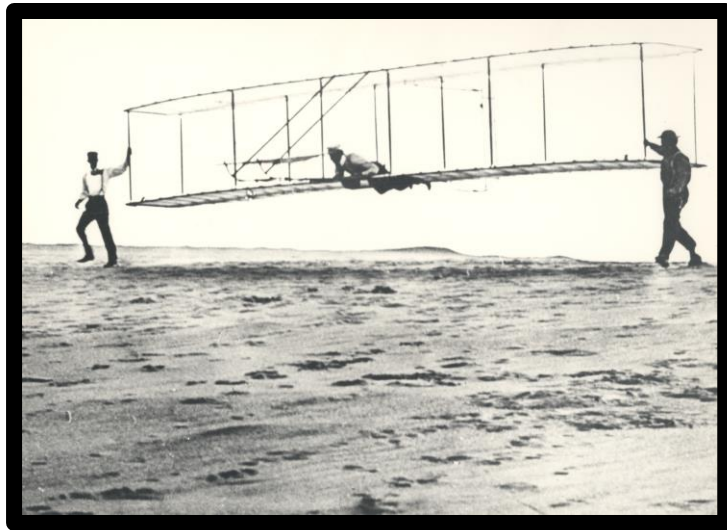

Bicycles were very popular. Many
people rode bicycles to go places.

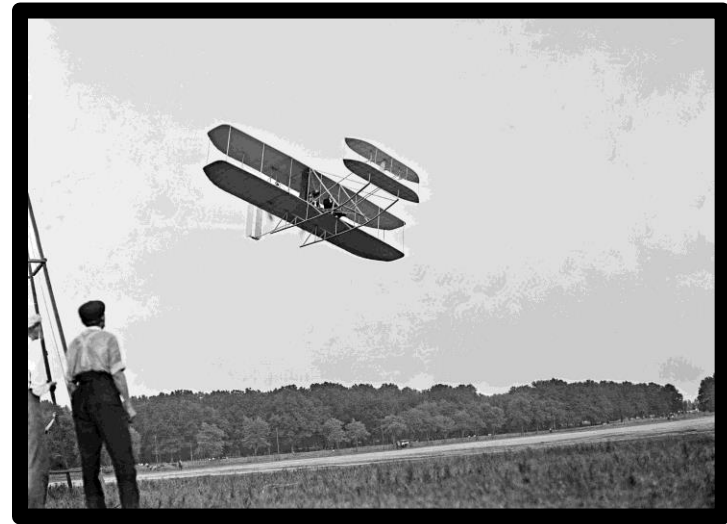

Wilbur and Orville opened a **bicycle shop** in Dayton, Ohio. They sold and repaired bicycles. They also invented parts to make bicycles better.

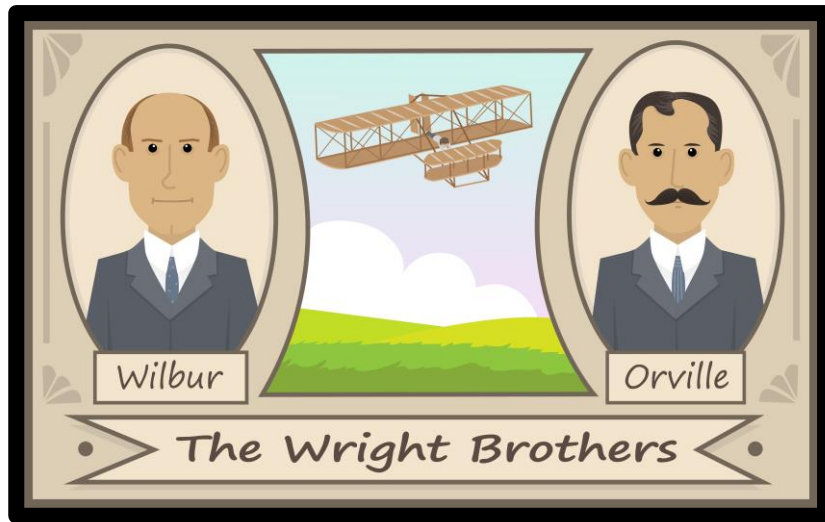

Orville and Wilbur also invented things that fly. They tried to invent a **kite** that a person could ride on.

Then they invented a **glider** that a person could ride. The ride only lasted a few seconds, but they were excited.

Finally, they invented an **airplane**. They flew it in Kitty Hawk, North Carolina on December 14, 1903.

Orville and Wilbur Wright are famous people from the **Industrial Revolution**. They invented an airplane that could fly.
