Typhoon Damrey hit Vietnam

Vietnam is a country in Southeast Asia. The people in Vietnam are called Vietnamese.

A lot of people live in cities in Vietnam.

Vietnam also has many paddy fields in the country where farmers grow rice.

Vietnam is also a jungle. Tigers, monkeys, and elephants live there.

Vietnam has warm weather all the time. It is on the coast of the South China Sea.

Typhoon storms start in the water and move to land. They happen in places that are warm and near an ocean or sea.

On November 4th, Typhoon Damrey hit Vietnam. It was the biggest typhoon that Vietnam has had in 16 years!

Typhoons cause strong wind and rain. The heavy rain flooded streets and homes in Vietnam.

The strong winds knocked down houses.

The strong winds knocked down 300,000 mango and dragon fruit trees!

The typhoon is over now. The people in Vietnam need help. They lost homes and food. They have a big mess.
