Selena has 6 dogs! She adopted her dog, Baylor, from the Humane Society in Manitoba, Canada. Where is Manitoba, Canada? What does adopt an animal mean?

Sometimes the Humane Society is called an animal shelter. What does the Humane Society do? Why are animals there?

A lot of pets are **homeless**. The Humane Society helps pets find homes. Do you know anyone who has a pet? What kinds of pets do people have?

People can adopt a **dog** from an animal shelter. Some are puppies, and some are adult dogs. There are many different breeds of dogs. If you adopted a dog, what would you name it?

People can also adopt a **cat** from an animal shelter. Some are kittens, and some are adult cats. There are different breeds of cats. Do you know anyone who adopted a cat? What are the names of the cats you know?

People can also adopt **small pets** like guinea pigs, rabbits, or rats from the animal shelter. Do you know anyone who has one of these animals? What do you know about guinea pigs?

The Humane Society also **protects** animals from cruelty. Sometimes animals are starving or hurt. Veterinarians work at animal shelters. How do vets help animals? What is being cruel to animals?

In Selena's video "Love you Like a Love Song", the producer wanted to have a **pink horse** in the video. Painting a horse might irritate its skin. Selena did not want a painted horse in her video. Do you think it's cruel to paint a horse?

You can help the Humane Society. Look at the website of the Human Society near you. Small kittens at shelters need socks filled with rice. That keeps them warm. What do you think you could do to **help** the Humane Society?
