Flying fox bats are the biggest bats in the world. They are called megabats.

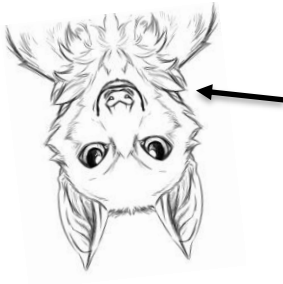

Flying fox bats look like foxes. They are not foxes. They are bats. Both are mammals.

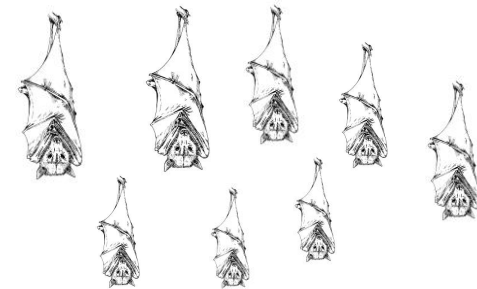

Flying foxes are **fruit bats**. They eat fruit and drink flower nectar.

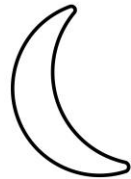

Flying foxes live in Africa, Asia and Australia. They like to live by water in the **jungle**.

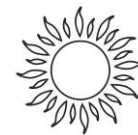

Flying foxes have **fur**. They get hot in the jungle.

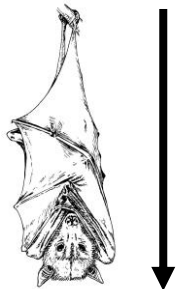

They live in large **groups**.

They are awake at **night**. They are nocturnal.

They sleep in the **day**. They sleep in trees.

They **sleep** upside down.
