The savanna is a **grassland**.
Where else does grass grow?

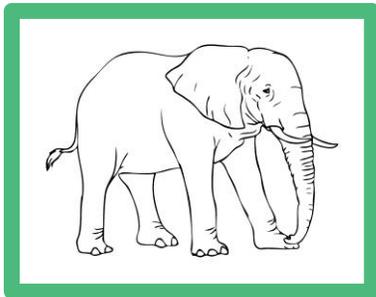

The grass is food for **herbivores**. Herbivores only eat plants. Which plants do you eat?

Giraffes are herbivores.
They eat leaves and grass.
What leaves do people eat?

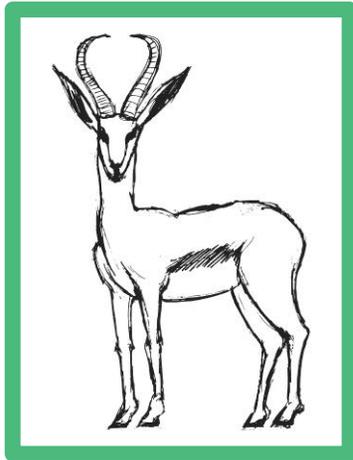

Zebras are herbivores.
They eat grass.
Are you an herbivore?

Elephants are herbivores.
They eat grass and leaves.
They eat all day long!
When do you eat?

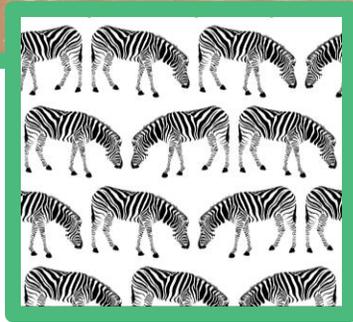

Buffalo are herbivores.
They eat grass. Male
buffalo have horns. What
other animals have horns?

Gazelles are herbivores.
They eat grass.
Gazelles run very fast.
What other animals run fast?

Some animals are **carnivores**.
Carnivores eat meat.
They kill herbivores and eat
them. They are predators.

Herbivores are afraid of predators. They stay together in a **herd**. The herd protects them. Why are they afraid of predators?
