A **reptile** is a type of animal.

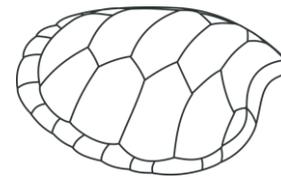

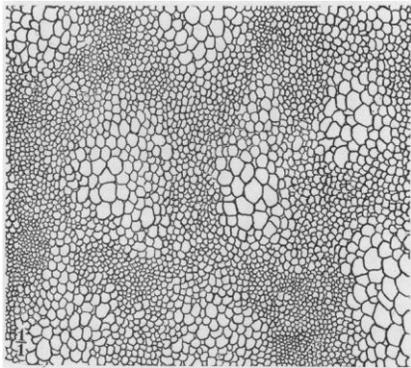

Reptiles lay **eggs**. Baby reptiles hatch from eggs.

Baby reptiles eat what adult reptiles eat. They do not drink milk.

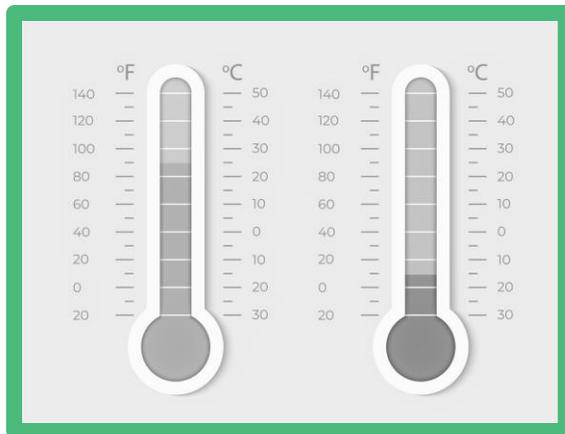

Baby reptiles **don't need help**. They can live on their own.

Some reptiles have **scales**.
Some are smooth. Some
are rough and dry.

Some reptiles have a **shell**.

Reptiles are **cold blooded**.
The inside of their body
changes temperature.

Reptiles lay in the sun to
warm up.
