A reptile is a type of animal.

Reptiles lay **eggs**. Baby reptiles hatch from eggs.

Baby reptiles eat the same food adult reptiles eat. They do not drink milk.

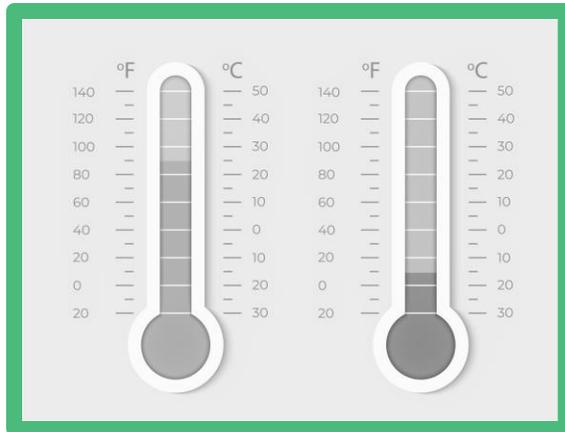

Baby reptiles **don't need help**. They can live on their own.

Some reptiles have **scales**.  
Some are smooth. Some  
are rough and dry.

Some reptiles have **shells**.

Reptiles are **cold blooded**.  
The inside of their body  
changes temperature.

Some reptiles lay in the sun  
to **warm up**.

Some **animals** are reptiles.  
Some are not reptiles.
