Amelia Earhart was a famous pilot. She lived about 100 years ago.

Amelia Earhart was the first woman to fly across the **Atlantic Ocean**.

She left Newfoundland,
Canada on May 20, 1932.

She flew across the Atlantic
Ocean for 15 hours.

She landed on a farm in **Ireland**.
She did it! She crossed the
Atlantic Ocean!

Then she wanted to fly around
the world. She wanted to follow
the **equator**.

She was almost done flying around the world. She left **New Guinea**. The next stop was a small island.

She got **lost**. She could not find the small island. The plane was running out of gas.

Amelia called for help on her radio.
The radio didn't work. She went
missing. Maybe her plane crashed.
