Thomas Edison was a scientist. He was from Ohio.

He was born on February 11, 1847.
He lived about 200 years ago!

Back then, people had to light a candle or lantern to see at night.

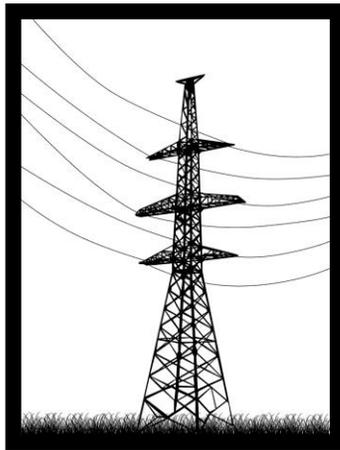

People did not have outlets in their houses. There was no electricity.

Edison worked in a lab. He worked on inventions. He made new things.

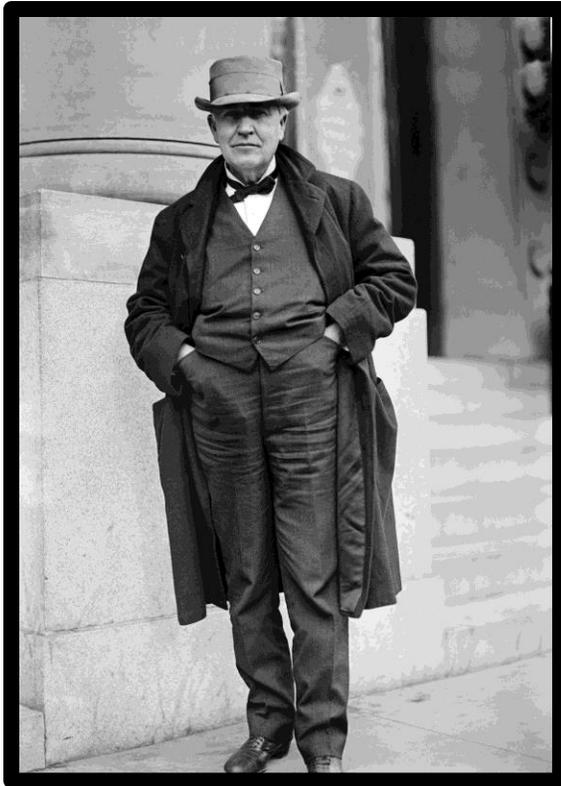

Edison invented **light bulbs** for lamps.

Edison connected electricity to houses. Now people could plug things into outlets.

People did not need candles or lanterns for light. They had **lamps**.

Thomas Edison is famous
for inventing the light bulb.
