

Name _____

The Earth's Crust

Directions: Color each layer of the Earth a different color.

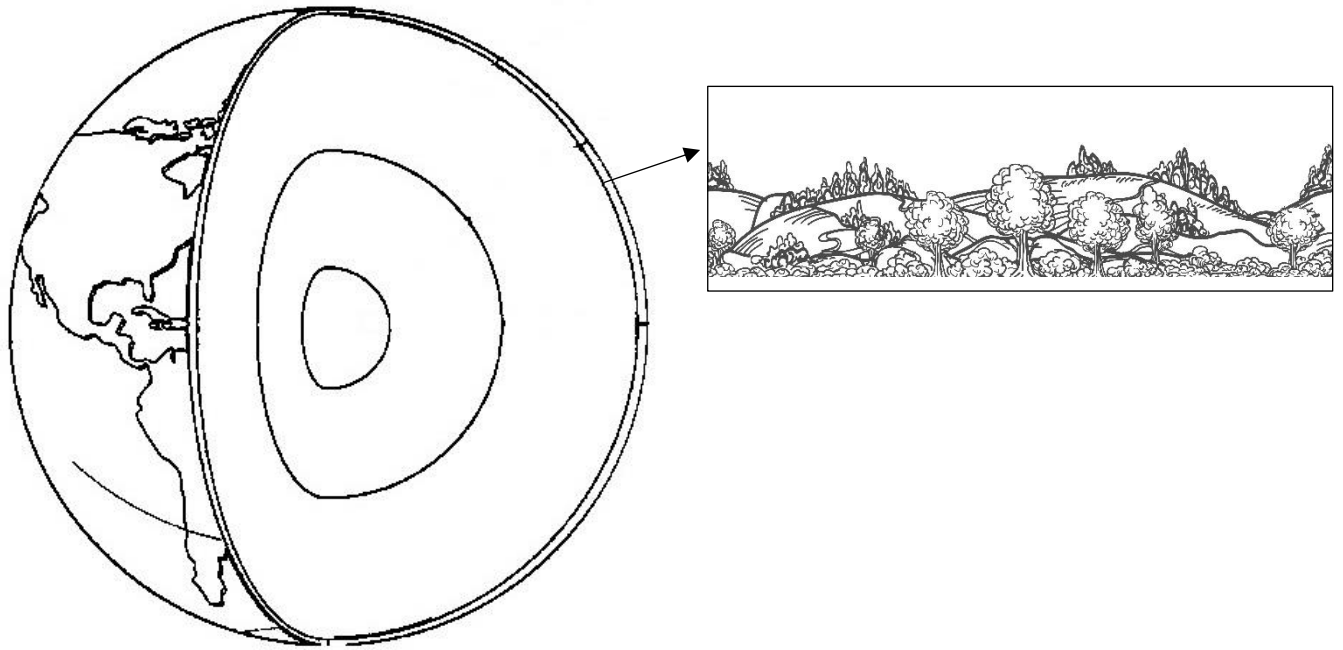

The **Earth** is made of rock and metal. The Earth has 4 layers.

Directions:

1. Color the crust.
2. Color the land that is on Earth.

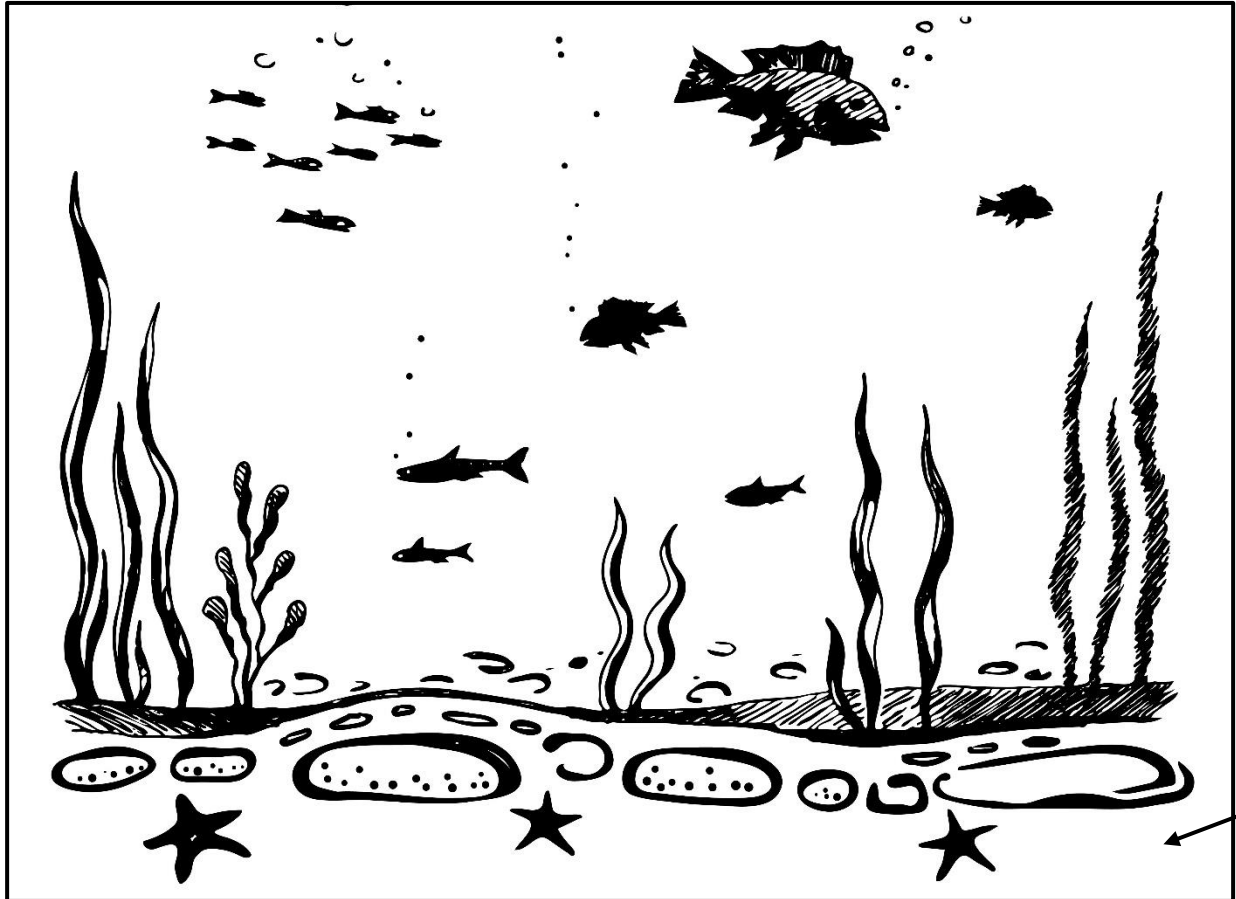

The **crust** is the first layer of Earth.
The crust includes all the land on top
of the Earth.

Directions:

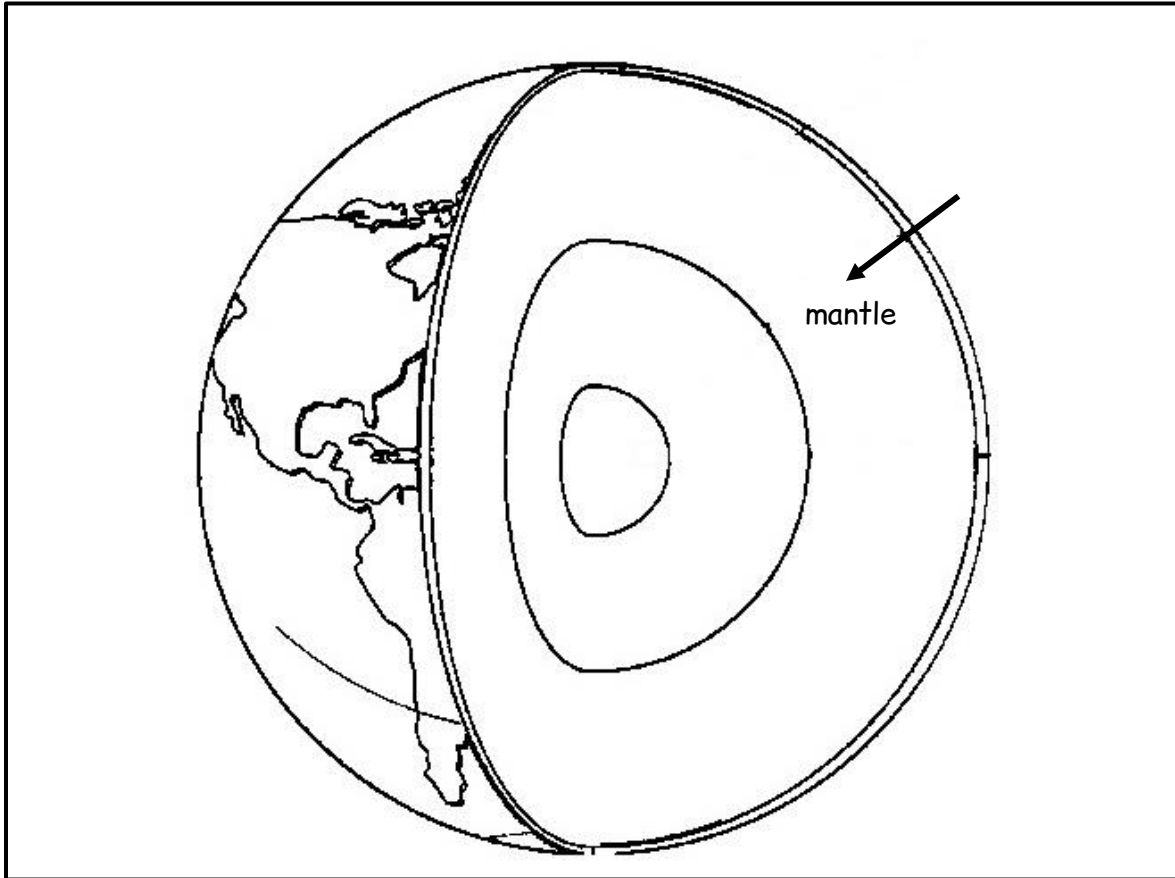

1. Color the land under the water brown.
2. Color the water blue.

The crust layer also includes the land under water.

Directions: Use an orange crayon or marker to color the mantle.

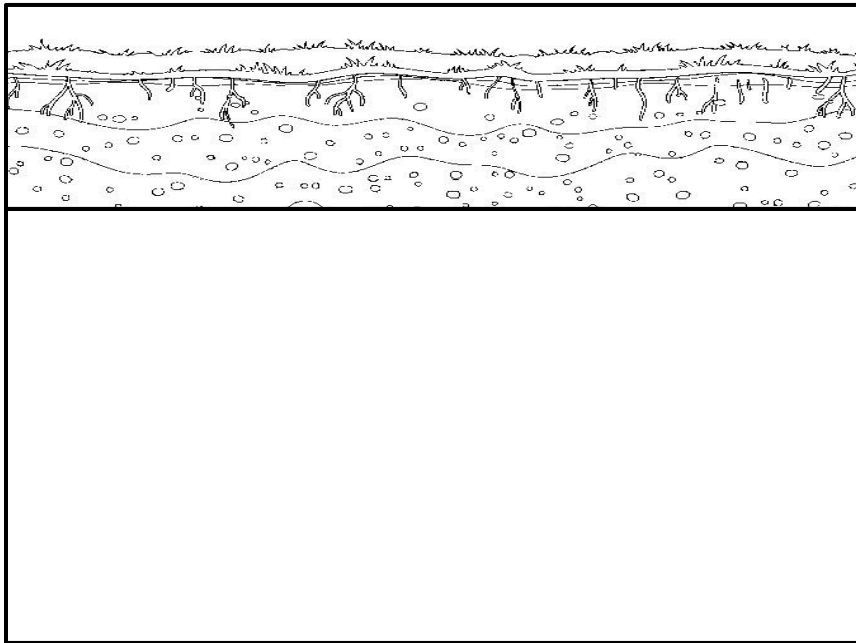

The second layer is the **mantle**. It is under the crust. It is the biggest layer. It has two parts.

Directions:

1. Cut out the rocks on the last page
2. Glue the rocks in the box.

crust

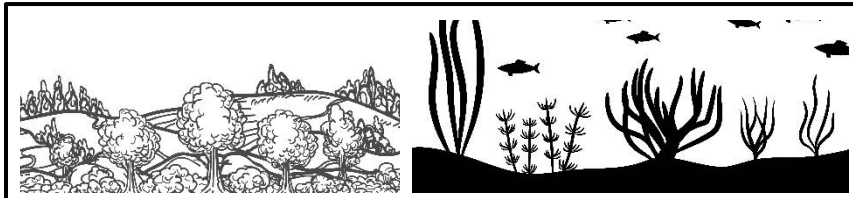

upper mantle

The top part of the mantle is made of rock.

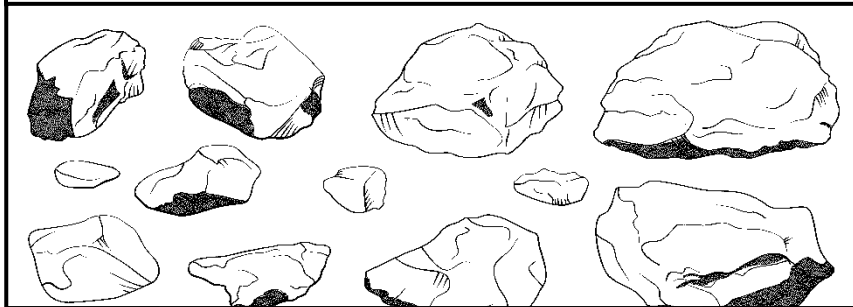

Directions:

1. Cut out the magma on the last page.
2. Glue the magma in the box.
3. Color the magma orange.

crust

upper mantle

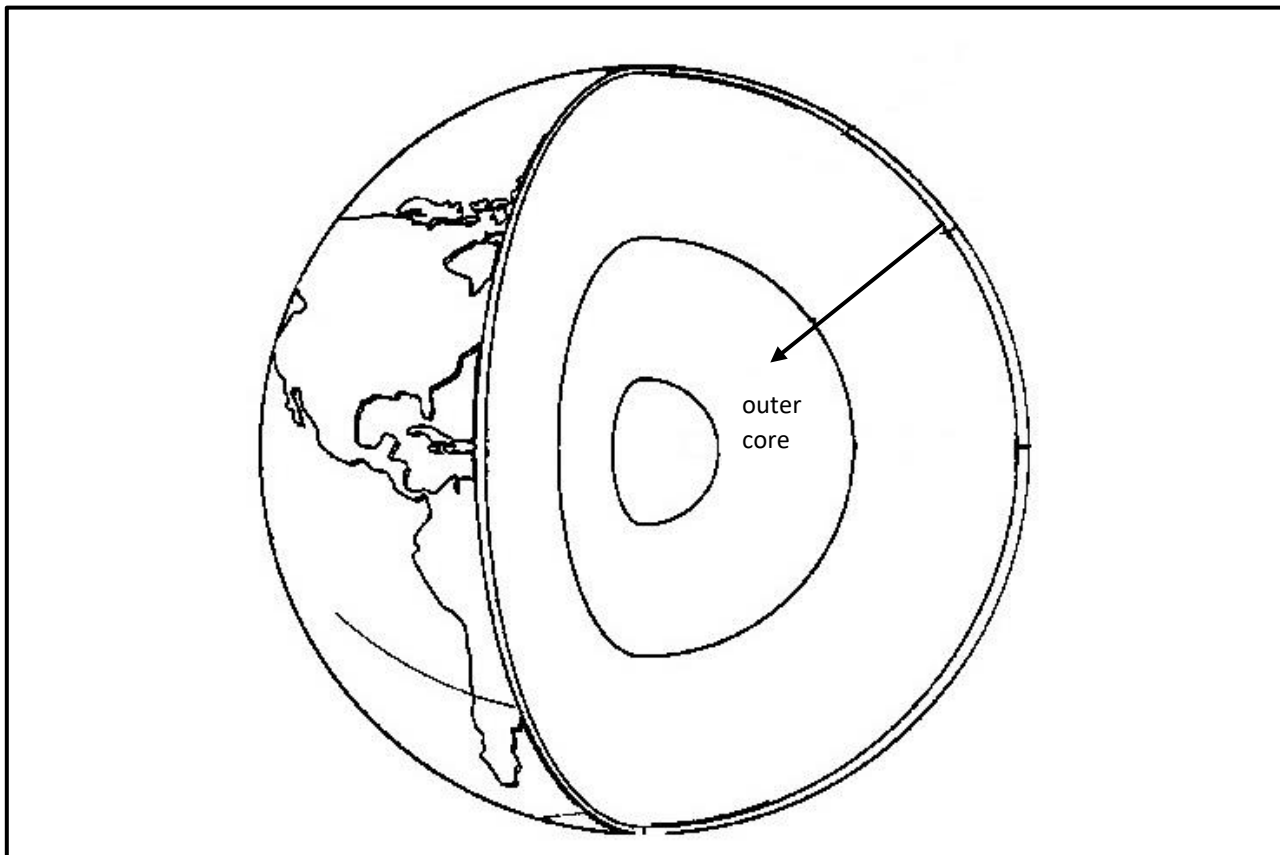

lower mantle

The bottom part of the mantle is made of **magma**. Magma is melted rock. It is hot.

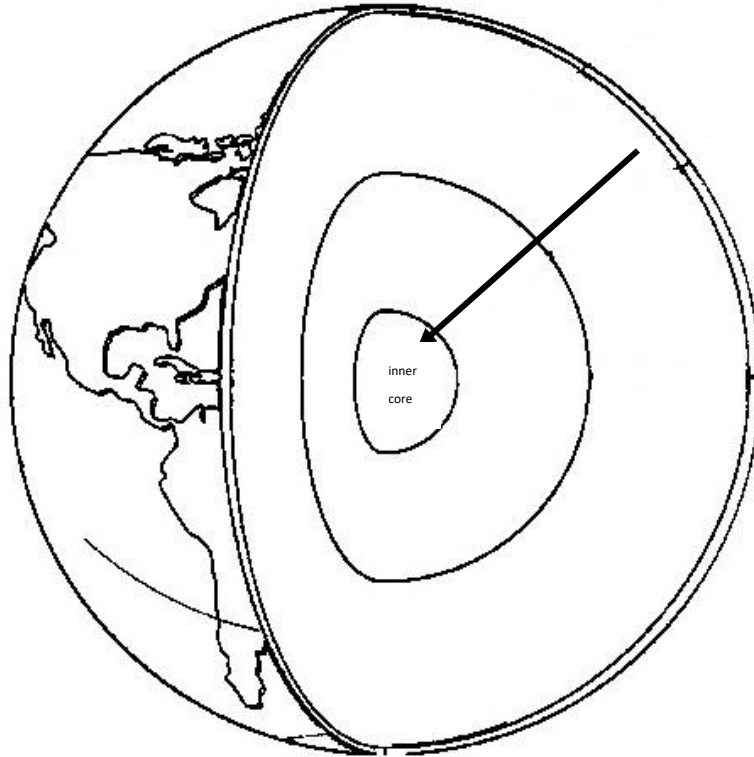

Directions: Use an orange crayon or marker to color the mantle.

The third layer of Earth is the **outer core**. It is made of melted metal. It is hotter than the mantle.

Directions: Use a red crayon or marker to color the inner core.

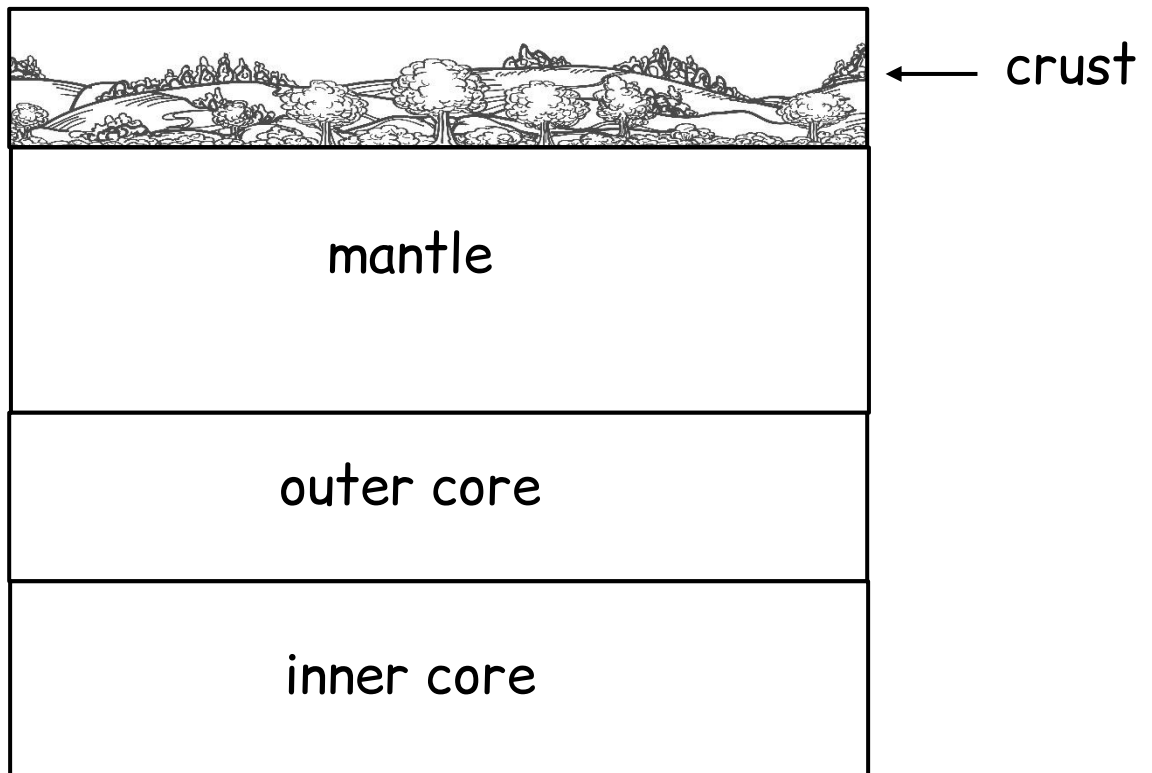

The fourth layer is the **inner core**. It is the center of the Earth. It is a ball of solid metal. It is the hottest layer.

Directions:

1. Cut out the people on the last page of the book.
2. Glue the family on the crust of Earth.
3. Color the 4 layers of Earth a different color.

We live on the crust layer of the Earth. There is a total of 4 layers.
