The **Moon** is in the sky. You can see it at night.

Volcanoes are on the Moon.

Meteorites hit the Moon. They make **craters** on the Moon.

June 2019						
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
30						1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23	24	25	26	27	28	29

The Moon goes around the Earth. It takes one **month**.

The Moon moves and looks different each night. There are **names** for the part of the Moon we see at night.

This is a **new moon**. You cannot see the Moon at all! There is no light on it.

This is a **crescent moon**. There is some light on the Moon.

This is a **full moon**. There is a lot of light on the Moon. You can see the whole Moon!

The Moon is fun to study.
Astronauts went to the Moon.
They put an American flag on
the Moon.
