Domestication

Copyright 2019 All Rights Reserved

By Janet Giel-Romo, Ed.D.

Wild animals do not live on a farm. They are not pets.

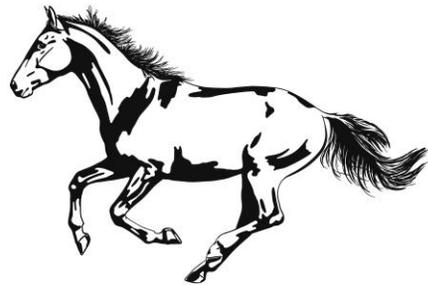

A long time ago, dogs were wild animals. They were not pets.

People had problems with wild animals. They wanted a dog to **protect** them.

People domesticated dogs. A **domesticated** animal lives with people.

A long time ago, horses were wild animals. They did not live on farms.

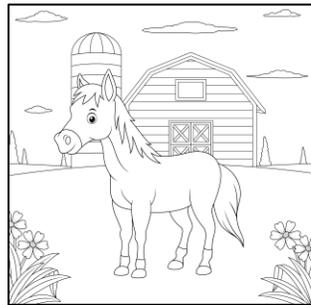

People had to walk places.

Wild horses were domesticated so that people could **ride** them.

Farmers domesticated wild animals. They wanted animals for food or other things.

Farm animals are domesticated animals. Farming is a business.
